NEW DELHI [24 (INDIA)]  
The 27th August, 1951.

S. P. JAIN,  
for Registrar General, India,

# NATIONAL SAVINGS CERTIFICATES

Available in three different series, maturing after 5, 7 and 12 years. The yield is 3%, 3.57% and 4.16% simple interest, respectively, at maturity. Thus, in the 12 year-certificates money increases by 50% on maturity. Interest is free of income-tax and super-tax and is not taken into account in arriving at the total taxable income.

The certificates are obtainable from Post Offices doing Savings Bank business in denominations of Rs. 5, 10, 50, 100, 500, 1,000 and 5,000. An individual can invest upto Rs. 25,000, and two joint holders upto Rs. 50,000/-.

Full particulars obtainable from Post Offices, District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

Deposits accepted in multiples of Rs. 100/- upto a maximum of Rs. 25,000 for a single depositor and Rs. 50,000 for two persons jointly. Interest at 3½% per annum (free of all taxes and not taken into account in assessing the total taxable income) is paid or remitted to the depositor's address every year. Deposits accepted at offices of the Reserve Bank of India at Bombay Calcutta, Delhi & Madras, and Branches of The Imperial Bank of India in other places transacting treasury business.

Full particulars obtainable from District Organisers of the Small Savings Scheme, Assistant National Savings Officers, Provincial National Savings Officers, or the National Savings Commissioners, Simla.

\*In cases of town where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates

†Figures not available.  
Explanation of symbols used:—B.—Births; B.R.—Birth rate; C.—Cholera; S.—Smallpox; P.—Plague; F.—Fever; D.D.—Dysentery and Diarrhoea; R.D.—Respiratory diseases; M.D.—Maternal Deaths; D.R.—Death rate; I.D.—Infantile deaths (included in total deaths).

## REMARKS

The figures of births and deaths shown in this statement for week ending the 4th August, 1951, relate to 167 towns with an estimated population of 23,016 thousands. The total number of towns is 235 and their population is 29,296 thousands. Thus 71% of the total number of towns representing 79% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 15,500 and 7,836 representing birth and death rates of 35.0 and 17.7 per thousand of population respectively.

(A) States (Parts A & C).—The data here relate to 148 towns with an estimated population of 19,970 thousands. Information about Assam, Bihar and Panjab (I) could not be included. The total number of towns is 203 and their population is 25,092 thousands. Thus 73% of the total number of towns representing 80% of the total population is covered. The numbers of births and deaths

recorded in these towns were 14,028 and 7,082 representing birth and death rates of 36.5 and 18.4 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 19 towns with an estimated population of 3,046 thousands. The total number of towns is 32 and their population is 4,204 thousands. Thus 59% of the total number of towns representing 72% of the total population is covered. The number of births and deaths recorded in these towns were 1,472 and 744 representing birth and death rates of 25.0 and 12.7 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
